

FOR IMMEDIATE RELEASE

Lennox & A-Plus Honor Local Heroes by Donating New A/C System

Austin, Texas – September 26, 2024– A-Plus Air Conditioning & Home Solutions is teaming up with Lennox International, Inc. to give back to a family of deserving disabled veterans in Kyle. On Tuesday, October 8, 2024, we will be installing an air conditioner/furnace free of charge for the Taylor family.

The Lennox Feel the Love Campaign™ supports deserving families and individuals in our communities who are in need of newly installed HVAC systems that have hit a hard time and cannot afford a new system. As part of this program, Lennox will be donating a new Lennox HVAC system and A-Plus will donate the labor to install the new system at the Taylor family residence.

Shannon & Jonathan Taylor were nominated to the Lennox Feel The Love™ program by a family friend because of their dedication to serving others, both in the military and within their local community. Shannon, a retired army veteran, is on 90% disability due to her service. Despite her own challenges, including surviving a non-cancerous brain tumor removal and living with Hashimoto's disease, she remains a beacon of strength and compassion. She devotes her time to various community volunteer efforts, including the local food bank and church and youth ministries.

Jonathan, also a veteran with a disability rating, was a medic in Afghanistan, providing critical care under challenging conditions. Jonathan's compassion extends beyond his military service; he has donated a kidney, demonstrating his selflessness and commitment to saving lives. Furthermore, he founded DOVE (Donors Offering Veterans Everything), an organization dedicated to organ donation for veterans, ensuring that those who served receive the vital support they need. Jonathan's unwavering dedication to helping others and his impressive contributions to both the military and civilian communities make him a true hero.

Media is invited to attend the installation to celebrate our neighbors and capture b-roll and/or photography, as well as interviews. The installation will begin on Tuesday, October 8, 2024 at approx. 9:30 am – 10:00 am and lasting several hours. The location for the installation is 160 Spruce Dr., Kyle, TX 78640.

A-Plus Air Conditioning & Home Solutions is a local family owned, and operated HVAC, Home Repair, and Home Remodeling Company. We are an HVAC industry leader serving the Austin area since 1977.
